Residential on 0.11 Acres

Signal Hill, Calgary, Alberta

Welcome to Signal Hill, one of Calgary's most prestigious communities! This is a rare opportunity to own a property that has been lovingly maintained, thoughtfully renovated by its original owners. Every inch of this home reflects a commitment to quality, elegance, and smart design. Professionally renovated by Alec Williams and Cape Woodworking, this 2-storey beauty offers 4 beds, 4 bathrooms, and nearly 3,000 sq ft of living space! There's a long list of meaningful upgrades including: All new windows and doors throughout, 50-year rubberized Malarkey roof shingles, solar panels from JA Solar, EV charger (NASC rated), wash station with hot/cold taps in the garage, central AC, new furnace with air purification system, radon mitigation system, Kinetico water softener, no poly b, and Hunter Douglas window coverings! From the moment you arrive, the inviting front porch and charming curb appeal set the welcoming and sophisticated tone. Step inside, and you'll immediately notice the gorgeous wide-plank hardwood floors that flow throughout the main level. At the front of the home, there's a versatile den, ideal for a home office. It features stunning custom-built shelving, cabinetry, and millwork. The heart of the home is an open living space with a stunning exposed beam for architectural charm. The kitchen? Simply outstanding. A built-in Subzero refrigerator, a Wolf gas range with four burners and a griddle, a dedicated plumbed coffee station and wet bar, and clever

storage solutions like a pullout pot drawer make it both stylish and functional. Whether you’re hosting guests or enjoying a quiet evening, the adjacent living room—with its cozy wood-burning fireplace and huge windows that flood the space with natural light—is the perfect place to unwind. The dining area is equally inviting, with built-in bench that offers a lovely spot to take in views of the backyard. The outdoor space of this property truly shines. A massive deck provides the perfect setting for BBQs, morning coffee, or simply relaxing. You’ll love the mature trees, lush greenspace, and walking path leading to an Aspen grove and playground. And for those evenings when you want to gather around the fire, the expertly crafted stone party pit (designed to minimize wind interference) offers a cozy, private space. There’s even a storage shed and wood-chopping area! The second level of this home features a spacious bonus room with vaulted ceilings and sunny south exposure. The primary bedroom is massive—large enough for a king-sized bed with plenty of extra room for dressers, wardrobes, a desk, or even fitness equipment. Two additional bedrooms, a 4-piece main bathroom, and a thoughtfully designed laundry area with storage and counter space complete this level. The basement offers even more flexibility, featuring a guest bedroom, another four-piece bathroom, and an open recreation room with an exposed ceiling. There's so much value in this property so schedule a showing and see it for yourself!
